## STRAWBERRY MOMENTS

A feature film by **Renate Woltron**  
Austria 2019, 89 min.

**A turbulent comedy with love effects**

With wit, dry humor and gorgeous situation comedy "Strawberry Moments" tells about a research experiment on the subjects role models, male and female stereotypes and social (dis)order. Strawberry Moments stand for the special moments in life.

Elisa, freelancer for a lifestyle magazine, shall write a story about "Role models - men and women just tick differently".

She takes the challenge and does not only want to do a simple research, but would also like to get involved in an experiment practically. She is planning to meet different men and then put her personal experiences on paper.

Tristan, her friend from youth days, participates in the adventure and wants to meet some women for testing purposes.

Then the experiments begin and Elisa as well as Tristan meet different people at different locations and make their experiences...

Who finally finds to whom remains open ...

But one thing is certain: THE WORLD IS COLORFUL and SOCIETY IS A COLORFUL ZOO!

With Erwin Leder (Das Boot, Underworld) und Max Grodénchik (Star Trek) in supporting roles.
